

"FOR NOTHING"

Did you ever notice how many things a bank does "for nothing." Accommodating, some folks call it, but as a matter of fact the bank is trying to get your confidence and your business. We need it and can afford to exert a little free energy to get it. Every officer and employee of this bank is strictly at your service. We believe we deserve your confidence and wish to merit and keep it. We can do you a lot of good if you will let us, and we expect to profit only by your prosperity.

The First National Bank

CHEAP MIXTURE FOR VERMIN

Formula Given by Pennsylvania State College—Should Be Kept on Hand the Year Round.

While there are many ready-prepared lice mixtures on the market, none are more effective than a mixture recommended by Pennsylvania State College. It may be made at home and is cheap.

The formula is: Two and one-half pounds of plaster or paris, three-quarters of a pint of gasoline, one-fourth of a pint of crude carbolic acid. When the ingredients are mixed, one will have an effective lice powder that costs less than five cents a pound. The mixture should be worked through a fine sieve, to break up lumps and to get in such form that it will sift readily.

When it is first mixed it will be too wet to sift, but the gasoline will soon evaporate. The active principle in driving away the lice is the carbolic acid. To use the homemade preparation, which should be kept on hand the year around, one sifts it over the birds the same as any other lice powder.

RUNNER EXCELS AS FORAGER

Utility Fowl, Noted for Its Egg Production, Is Often Termed Leghorn of the Duck Family.

The Runner is a breed of small utility duck noted for its egg production and is often termed the Leghorn of the duck family. These ducks have been credited with records of more than 200 eggs each in flocks of ten, and 192 eggs each in flocks of 100.

Young Runner Ducks.

The "Runners" are active in their habits, are good foragers, and on an extensive run are able to find a large proportion of their food. They are nonsitters, are hardy and easily reared, but do not stand confinement well.

Their flesh is of a deep yellow color and is of fine quality, but their small size is rather against them for market purposes, except for broilers.

PULLETS FOR WINTER LAYERS

Advisable to Select Those That Have Grown Rapidly—Men in Action Needs Lots of Room.

In selecting pullets for this winter's layers, it is advisable to choose those birds that have grown rapidly and well and those that show quality, as indicated by a soft, pliable skin over the breast bone and abdominal cavity. In addition to these two considerations quality is further indicated by the texture of the head parts. The comb and wattles should not only be well developed but should have a nice, smooth, velvety texture. A fourth consideration in selecting the prospective layer is that of capacity. A hen in action needs lots of room, that is to say, room for the digestive and reproductive organs. Such capacity is indicated by good width between the pelvic bones and also good width between these and the rear end of the keel.

Ration for Chickens

A simple grain mixture in corn, wheat, and oats, a little more corn as the weather gets colder and less during the summer days. A little buckwheat and sunflower seed added to this mixture during fall and winter months is beneficial. Green foods, such as alfalfa, cabbage, sprouted oats or mangels should be fed freely. Fresh green cut bone or beef scraps and charcoal should also be supplied at all seasons of the year.

Litter for Duck Houses

The best litter for duck houses is sawdust, although sawdust will serve, other is better than straw, which quickly becomes damp. It is necessary to have plenty of clean litter in feeding houses both to keep the corn dry and to protect the eggs, which are not laid in nests, but dropped anywhere the ducks happen to be.

Nearly Smothered.

Chandler, N. C.—Mrs. Augusta Lomez, of this place, writes: "I had smothering spells every day, to bad I expected death at any time. I could not sit up in bed. I suffered from womanly troubles. My nerves were unstrung. I had almost given up all hope of ever being better. I tried Cardui and it did me more good than anything I had ever taken. I am better now than I ever expected to be." Thousands of ladies have written similar letters, telling of the merits of Cardui. It relieved their headache, backache and misery, just as it will relieve yours, if you will let it. Try Cardui.—Advertisement.

A Clogged System Needs Attention.

Are you bilious, dizzy and listless? Dr. King's New Life Pills taken at once seizes upon constipation and starts the bowels moving naturally and easily. Moreover it acts without griping. Neglect of a clogged system often leads to most serious complications. Poisonous matters and a body poorly functioning need immediate attention. If you wish to wake up to-morrow morning happy in mind and entirely satisfied, start your treatment to-night. 25c. a bottle.—Advertisement.

She Spoils It All.

An artist and his wife were entertaining some friends at tea in the studio. The host's picture, which had recently been "hung," was the topic of conversation. Said one lady: "Mr. Vandike, yours was the only picture I looked at in the exhibition." Vandike bowed and smiled delightedly. "Believe me, madam," he said. "I appreciate the honor." But she gave a little stare of perplexity. "Honor?" she said. "The others, you know, were so surrounded by the crowd."

Facts For Sufferers.

Pain results from injury or congestion. Be it neuralgia, rheumatism, lumbago, neuritis, toothache, sprain, bruise, sore stiff muscles or whatever pain you have yields to Sloan's Liniment—brings new fresh blood, dissolves the congestion, relieves the injury, the circulation is free and your pain leaves as if by magic. The nature of its qualities penetrate immediately to the sore spot. Don't keep on suffering. Get a bottle of Sloan's Liniment. Use it. It means instant relief. Price 25c. and 50c. \$1.00 bottle holds six times as much as the 25c. size.—A vertisement.

WE HAVE THEM NOW—As we have just received our large importation of Holland grown bulbs of all kinds—METCALFE THE FLORIST. Advertisement.

SUBURBAN BARGAINS

We now offer for sale two small suburban homes very cheap.

No. 1 is located just outside of City and contains about 2 acres land, good improvements 100 fine fruit trees, berries and grapes. Our price on this one \$2,000. Easy terms.

No. 2 is 2 1/2 acres, 2 small houses and barn, good cistern and well, some nice fruit, located about 2 miles out on good pike. If taken soon \$600 gets it.

IMPROVING THE POST-ROADS

Four Hundred and Sixty-Five Miles of Experimental Highways Are Now Under Construction.

Four hundred and sixty-five miles of experimental post-roads of different types, benefiting 28 different counties, are now under construction in 13 states, which are co-operating with the federal government. These roads, which are being built under the supervision of the department, are authorized by the act of congress of August 24, 1912, which appropriated for the post-road department \$500,000, to be expended in an experiment to test out the value of improved rural-carrier routes. The federal government pays one-third and the state or county benefited must defray two-thirds of the cost. The entire sum of \$500,000 of federal funds and \$1,000,000 of local funds will be expended under the supervision and checking of federal highway engineers.

Ohio State Highway, Brick.

The following work on post-road improvement has been undertaken, according to a bulletin dealing with the construction and maintenance of roads and bridges, issued by the department:

Lauderdale county, Alabama, 20 miles of earth road.
Boone and Story counties, Iowa, 51 miles of earth road.
Dubuque county, Iowa, 20 miles of gravel road.
Bath and Montgomery counties, Kentucky, 11 miles of macadam road.
Montgomery county, Maryland, 5.4 miles of macadam road.
Cumberland county, Maine, 21 miles of bituminous macadam road.
Leflore county, Mississippi, 24 miles of gravel road.
McDowell county, North Carolina, 16 miles of earth road.
Davie, Forsyth and Iredell counties, North Carolina, 48 miles of sand-clay and top-soil road.
Licking and Muskingum counties, Ohio, 24 miles of concrete road.
Jackson county, Oregon, 51.4 miles of earth road.
Aliken county, South Carolina, 27.3 miles of sand-clay and top-soil road.
Loudon county, Tennessee, 6.4 miles of macadam road.
Montgomery county, Tennessee, 7.6 miles of macadam road.
Bexar, Comal, Aravis, Hays and Guadalupe counties, Texas, 71.6 miles of gravel road.
Fairfax county, Virginia, 12.3 miles of gravel road.
Spotsylvania, Caroline and Hanover counties, Virginia, 38.2 miles of sand-clay and top-soil road.
As rapidly as these roads are constructed the department is endeavoring to interest the local authorities in inaugurating systematic maintenance to keep them in condition. The county engineer has undertaken the maintenance of the Virginia post-road in Spotsylvania county, and another will supervise the upkeep of the completed part of the Ohio post-road. It is believed that this local maintenance system will be extended to the post-roads to be built in Maine, Tennessee, Texas and Alabama.

Bulletin on Roads.
The United States department of Agriculture bulletin, No. 220, is upon the subject of roads. It is well worth reading. It tells of Holland roads, French roads, and treats not only of road surfacing, but of road grading and foundations for roads. Send for it. It's free.

Keep Roadside Clean.
Roadsides and fence rows free of weeds, rank grass and rubbish, are not only pleasing in appearance, but injurious crop pests cannot start housekeeping in such places. Neither is there a chance for noxious weeds to mature or dangerous plant diseases to start on clean roadsides.

Greatest Single Factor.
The greatest single factor in national economics is transportation, and the greatest single factor in economical transportation is good roads.

Time Card

Effective Friday, Apr. 2, 1915.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." Ask druggists. 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.

Counting Your Money

will occupy your entire time when you become a regular advertiser in THIS PAPER. Unless you have an antipathy for labor of this kind, call us up and we'll be glad to come and talk over our proposition.

No other building material offers such a low cost of maintenance as Brick.

There is literally nothing to do, year after year to the outside walls of a Brick House.

If you are building for home or investment, why use a material which must be constantly painted, repaired or even replaced? Why not use
